# FOREWORD

**DR. PADMARAJ HEGDE**  
**DEAN,**  
**KASTURBA MEDICAL COLLEGE, MANIPAL**

It is with great pleasure that we announce the inaugural edition of "Vedam," the 5-day Academic Fest organized by Kasturba Medical College, Manipal. As a part of our yearly event, "Asterion," Vedam guarantees an enthralling experience featuring a comprehensive array of captivating workshops meticulously curated by three esteemed academic clubs of our college that are- Cutting Edge (the Student Surgical Society), Tempus Pretioso (the Emergency Medicine Club) and Justitia (the Forensic Medicine Club).

One of the highly anticipated components of VEDAM is the conference "Meliora," organized by the Student Research Forum (SRF) and the Indo-German Convention of Lindau Association (IGCLA). This conference will feature competitions such as case and research presentations, a hackathon, symposiums, and insightful workshops focused on recent advances and skill development.

VEDAM aims to create a vibrant platform for medical students and professionals to exchange ideas, engage in intellectual discourse, and showcase their talents. The festival will encompass a diverse range of activities, including keynote speeches by renowned experts, interactive workshops, research paper presentations, poster exhibitions, and various competitions designed to stimulate critical thinking and foster collaboration.

In the words of Galen, "The physician must be able to tell the antecedents, know the present, and foretell the future - must mediate these things, and have two special objects in view with regard to disease, namely, to do good or to do no harm." With this philosophy in mind, we cordially invite medical colleges to join us in this academic fest, which will holistically contribute to the development of future doctors and their dedication to research and advanced healthcare treatment for society.

We wholeheartedly welcome your participation and look forward to hosting a memorable event that will shape the future of medical education and research.

Together, let us strive to advance healthcare and make a positive impact on society.

# **ABOUT KASTURBA MEDICAL COLLEGE, MANIPAL**

Founded in 1953 by the revered Dr T.M.A. Pai, Kasturba Medical College was the first private medical college in the country. Established on the principles of honesty and excellence in clinical practice, it has grown to be one of the finest medical institutions in the country with its state-of-the-art facilities and world-class faculty.

Throughout its 70-year history, KMC Manipal has produced some of the finest doctors and world leaders in healthcare. This dedication to brilliance has consistently placed KMC, Manipal, as one of India's top 10 medical colleges.

KMC Manipal's history of eminence stems from its rich research culture, from exceedingly advanced labs supporting highly technical research to wise and knowledgeable mentors guiding students towards their research goals. This ethos is reflected in the success of its students, many of whom receive ICMR grants and present cases at various prestigious conferences, both at national and international levels.

*In this mission, the students of KMC Manipal have organised their very own academic fest that is Vedam-2023.*

# ABOUT MANIPAL

Manipal is a suburb and university town within Udupi, in coastal Karnataka, India. Located five kilometres away from the centre of Udupi City, it commands a panoramic view of the Arabian Sea to the west and the Western Ghats to the east. The name derives from “Mann” and “palla”, where Manipal originates. Mann means “mud”, and palla means “lake” in the Tulu language. What once was a barren hill is now home to the Manipal Academy of Higher Education, one of the country's most prominent institutions of eminence and deemed University. The sprawling University towns attract more than twenty-eight thousand students from 57 nations.

Life in Manipal is nothing short of a vibrancy. Enjoy a breathtaking sunset from End-point or take an evening stroll near Manipal Lake. Have a fun day with friends at Malpe Beach, with its serene views and numerous recreational activities.

Feeling sporty? Check out MARENA- a six-level state-of-the-art sports facility. Manipal also boasts various food options, from multinational food joints, quaint cafes to local eateries.

Also, don't forget to check out tourist attractions like St Mary's Isles, Arbi Falls, and Chikmagalur near Manipal.

# MELIORA

**EXPLORING INTERSECTIONS: Advancing Healthcare  
Through Collaborative Research**

THE SCIENTIFIC CONFERENCE OF  
KMC MANIPAL

# KEYNOTE SPEAKERS:

---

## **Talk-1: Future of medicine**

Join us for an enlightening session on the future of medicine. Explore groundbreaking advancements and transformative technologies shaping healthcare. Gain valuable insights into innovative approaches, diagnostic techniques, and enhanced patient care. Discover how medicine is revolutionizing treatment, improving surgical precision, and enhancing outcomes. Engage with a renowned expert, exchange ideas, and expand your professional knowledge. Don't miss this opportunity to be inspired and enriched on the path to a prosperous future in the medical field.

## **Talk-2: Difficult conversations with patients**

Join us to enhance your communication skills in difficult healthcare conversations. Gain tools and strategies to approach sensitive topics, deliver challenging news, and address complex issues with confidence and compassion. This session is designed for healthcare professionals and students alike, offering valuable insights to navigate challenging patient interactions. Don't miss this opportunity to refine your communication skills and deepen your understanding of these intricate discussions.

# PANEL DISCUSSION- MEDICINE VS SURGERY

---

Medicine and surgery comprise the two fundamental streams of medical practice, all under the communal term 'doctor'. Despite their differences, the two fields remain perceived as mirror images. In this session, panellists will discuss the relationship between these two distinct career paths, including their historical divide. Through a conglomeration of views, the discussion will explore the progress of the medical community. From student trainees to seasoned doctors, this kaleidoscope of ideas and opinions is sure to pique your interest. Witness the two sides of the same coin: medicine vs surgery.

## SCIENTIFIC EVENTS

# CASE PRESENTATION

Educate your fellow medical fraternity about the strangest cases or novel treatment methods you've seen through the Case presentation/ Poster presentation.

### Rules:

1. The case must be from a hospital affiliated with the college the participant belongs to
2. A scientific committee will review the submitted abstracts; There will be a selection of 15 abstracts for oral presentation from each domain.
3. The remaining abstracts will be considered for poster presentation.
4. The participant must maintain the patient/subject's confidentiality throughout the presentation.

# CASE PRESENTATION

## Rules for Submission

- The title of the abstract must not exceed 25 words
- The title should be in bold “Times New Roman”, with a font size 18.
- Below the title, please enter the Presenter’s name, year of study, phone number and the department from which the case was obtained.
- The abstract must adhere to the word limit of 300 words
- The main text of the abstract should be in “Times New Roman”, with a font size of 12
- The abstract must include an introduction, case presentation and discussion, highlighting the case's novelty or management.
- Do not enter the college name or details in the abstract, as it will make grounds for disqualification from Oral Case Presentation or poster presentation.

The cases submitted will be separated into two domains, Pre/Para Clinical and Clinical.

Information regarding the Oral/Poster Presentation format will be informed on acceptance of the Abstract.

**LAST DAY OF SUBMISSION: 16th July**

**RESULTS: 24nd July**

**LAST DAY TO SUBMIT POSTER- 30th July**

**For more information contact**

Lalit Ritwik- [9945515635](tel:9945515635)

Shivam Thaker- [9986535456](tel:9986535456)

# RESEARCH PRESENTATION

Since the dawn of time, the discovery led the path to improvement. From lenses used to observe micro-organisms to penicillin to treat bacterial infections, medicine has had no shortage of such findings. Every medical professional's goal is to treat patients to the best of their abilities and consistently improve their quality of care. Research has taken a frontline in the field in this goal of betterment. The research and poster presentation is a deal for you if you wish to present your positive impacts and meaningful discoveries to the area.

## Rules:

1. Written authorisation must be taken from the research mentor/guide
2. A scientific committee will review the submitted abstracts; There will be a selection of 15 abstracts for oral presentation.
3. The remaining abstracts will be considered for poster presentation.
4. The participant must maintain the patient/subject's confidentiality throughout the presentation.

# RESEARCH PRESENTATION

## Rules for Submission

1. The title of the abstract must not exceed 25 words
2. The title should be in bold "Times New Roman", with a font size 18.
3. Below the title, please enter the Presenter's name, year of study and phone number.
4. The abstract must adhere to the word limit of 350 words
5. The main text of the abstract should be in "Times New Roman", with a font size of 12
6. The abstract must include an introduction, method, result and conclusion.
7. Do not enter the college name or details in the abstract, as it will make grounds for disqualification from Oral Research Presentation.

Information regarding the Oral/Poster Presentation format will be informed on acceptance of the Abstract.

**LAST DAY OF SUBMISSION: 16th July**

**RESULTS: 24nd July**

Lalit Ritwik- [9945515635](tel:9945515635)

# SYMPOSIUM

Thought-provoking speeches and educational talks are those which are never forgotten. In this pursuit of knowledge, our conference is giving the opportunity to the participants to teach Medical Topics of their interest, in unique and professional manners, at the Symposium at Meliora-2023.

## Rules and Guidelines for Undergraduate Medical Research Symposium

### ELIGIBILITY:

- The symposium is open to undergraduate medical students( 1st year-internship)
- Each team must consist of 3-5 members.
- Each team should select a topic of their choice from the following subjects –
  - 1) Medicine and allied subjects
  - 2) Surgery and allied subjects
  - 3) OBG and Paediatrics
  - 4) Pre and para-clinical subjects

### ABSTRACT SUBMISSION:

- Participants must submit an abstract of their topic consideration.
- The abstract should be not more than 200 words.
- Abstracts should be submitted within the specified deadline
- Abstract must have Title in Times New Roman, with Font Size 18.
- Abstract must have Content in Times New Roman, with Font Size 12
- Enter your participant's name, contacts and subject
- DO NOT enter your COLLEGE NAME anywhere in the document

# SYMPOSIUM

---

## PRESENTATION FORMAT:

- The top 15 Abstracts will be selected for Oral Presentation
- Presentations can be in the form of Powerpoint.
- For oral presentations, participants will be given a specific time limit to present their research ( 10 minutes)
- 7 minutes presentation followed by 3 minutes Q/A session by judges.

## SYMPOSIUM STRUCTURE:

The symposium will be organised into sessions based on the theme of the research.

-Each session will have a designated moderator to introduce the presenters and manage the time.

- Q&A sessions will follow each presentation to allow participants to ask questions and discuss the research.

# PROFFESIONAL CONDUCT

- All participants must adhere to professional conduct throughout the symposium.
- Respectful behavior and academic integrity are expected from all attendees.
- Presenters should be prepared to answer questions and engage in scholarly discussions.

Judging and Evaluation: A panel of experts will evaluate the presentations based on scientific merit, clarity, and relevance to topic, and overall presentation skills.

- Judges may ask additional questions during or after the presentations.

Awards and Recognition:

Winners will be announced at the end of the symposium.

Audience Participation:

- Symposium attendees are encouraged to actively participate in discussions and ask questions.
- Attendees can provide constructive feedback to presenters, fostering a supportive learning environment.

LAST DAY OF SUBMISSION of abstract: 16th July

RESULTS: 24nd July

For more information contact:

Kritika Singh- [9936316091](tel:9936316091)

Lalit Ritwik- [9945515635](tel:9945515635)

# HACKATHON

Welcome to 'Eureka', a Medical Hackathon where innovation meets healthcare to shape a brighter future! In this exciting gathering of brilliant minds, we aim to foster collaboration, creativity, and problem-solving to address the pressing challenges faced by the medical field today. This hackathon welcomes participants from diverse backgrounds who share a common passion for improving the lives of patients and shaping the future of medicine. Together, we will harness our collective knowledge and expertise to tackle complex challenges and find novel solutions that have the potential to create a lasting impact on healthcare systems globally.

Join us at 'Eureka'; as we embark on an incredible journey of discovery, collaboration, and Innovation.

**PROBLEM STATEMENT:** Reduce mortality in emergency situations by improving coordination between emergency services and hospitals to enhance patient care.

## ONLINE SCREENING

1. An abstract of the idea of not more than 500 words must be prepared and submitted for the screening process latest by 16th July 2023.
2. The abstract should be written with a title using size 18 Times New Roman font, and the main body should be written using size 12 Times New Roman font. It should also include the college name, names and contact numbers of the individuals and their email IDs.

# HACKATHON

3. The list of selected teams will be released by 24th July 2023 following which teams need to prepare a presentation and submit by 30th July 2023.

4. Teams of 4 people are allowed.

5. The focus should be on the product/idea with appropriate references. The presentation must include the following-

- Name of the company
- Problem it solves
- Novelty of product
- Product design (in case of product) or Workflow (in case of service)
- Potential competitors
- Risks associated with the product and investing
- Plan for what will be done with investment

6. Plagiarism will result in disqualification.

The top 10 teams will be selected for Oral Presentation. An additional 25 teams will be selected for Poster Presentation.

WORKSHOPS

# CANCER GENOMICS WORKSHOP

The song of life is sung by a choir of genes and chromosomes banding together to create a beautiful symphony. Sometimes, however, just as a bad singer can ruin the harmony of a group, faulty genes can lead to the downfall of this mesmerising symphony and cause cancer.

In this workshop on oncogenomics, we shall explore the various dimensions and applications of Cancer genomics, as guided by a professor and expert on the subject. We shall also be analysing the molecular aspects of DNA and an enthralling discussion on rare and common oncological cases, which will give you a new insight into the art of diagnosis. Expert guidance will also be provided on the hows of research in oncogenomics, such as to make the topic more approachable as an undergraduate research project.

Join us in Meliora as we provide an extensive workshop on cancer genomics which is sure to send your mind atop the roof!

For more information contact:

Adwait Sarma- 9037797938

Vaibhav Gowda- 9901818841

# CARDIOLOGY: ECG AND SKILLS WORKSHOP:

Beep Beep Beep! This workshop will introduce you to different types of ECGs and their usage, including lead application, interpretation, and proper action-taking. Echocardiograms can diagnose life-threatening conditions such as cardiac arrhythmias and myocardial infarction. The second part of the workshop focuses on various procedures performed in cardiology, gain a hands on experience on these valuable skills which will help you gain confidence in essential doctor skills!

For more information contact:

Anushka- 9599065022

Ashish Aaryan- 8700199184

# OBSTETRICS AND NEONATAL SKILLS WORKSHOP:

Experience a unique and hands-on workshop focusing on birthing, episiotomy, and neonatal medicine. Led by expert instructors, this immersive workshop covers the birthing process, episiotomy, ABG interpretation, IV therapy, IO access, and ETI. Get simulated hands-on experience and gain confidence in these crucial areas of healthcare to take your medical expertise to the next level.

Shreya Mehta- 9483961720

Arnav Trivedi- 9555970530

# ASTERION

2023

THE ACADEMIC FEST OF  
KMC MANIPAL

# ABOUT THE EVENT

Cutting Edge-The Student Surgical Society, Tempus Pretioso-The Emergency Medicine Club and Justitia-The Forensic Medicine Club, KMC Manipal join hands to curate an academic fest dedicated to Quizzing, Skills and simulation, titled Asterion, after the point of convergence of three cranial sutures.

Manipal Academy of Higher Education has always stood for new and innovative ways of honing the skills of its students, and this is intrinsic to the functioning of each contributing club. We wish to come together to create an academic event like never before, that will train and test medical students of various colleges, through the diverse infrastructure KMC Manipal offers, like no other fest across the country.

Asterion, the result of convergent efforts, aims to test its participants in a battle of wits, while also training them in skills essential to those who wish to explore the art and science of Surgery, Critical Care and Forensic Medicine.

# ORGANISING PILLARS

Cutting Edge is the homegrown Student Surgical Society of Kasturba Medical College, Manipal. The honor and privilege of practising Surgery is unparalleled. Working with one's hands and mind in perfect synchrony is no less than art. Cutting Edge, through its sessions and workshops, brings the Operating Room experience closer to medical students. The club connects its members to practising surgeons at KMC Manipal, to advance the teaching and learning of important surgical techniques and skills in innovative ways. This serves as a boost to future careers in Surgery.

The first of its kind in India, Justitia is a Forensic Medicine club run for students, by students, with the aim of promoting the practical application of this widely important but underutilized subject. With ballistics, fingerprinting workshops and crime scene competitions under their belt, they're here to add their expertise and novelty to Asterion 2023.

JUSTITIA

Tempus Pretiosus, KMC's student run Emergency Medicine club, aims to equip medical undergraduates with the ability to deal with trauma and medical emergencies efficiently by inculcating the required skill at the foundation level." This is fulfilled by hosting interactive simulation and skills training sessions that allow the participants to test the waters and apply themselves to real-life situations that they might have to deal with as future physicians.

# MEDISIM

Medisim is an interactive simulation style event, where you'll learn to manage medical emergencies and learn important hands on skills in the fields of Surgery, Forensics and Emergency Medicine!

Save patients from death's grasp, in a real life simulation - definitely an experience you wouldn't want to miss out on!

# INQUESTIGATE

JUSTITIA

Justitia's awaited escape room event is back, with an uncharted twist! Using nothing but your wit and forensic knowledge, tackle the unforeseen obstacles that stand between you and the long-lost gold mine of Arizona!

Do you think you have what it takes to get out of the cruel desert alive while facing unforeseeable obstacles?

**Melvin: +971 50 411 0842**

**Shivam: +91 96854 48018**

# MURDER IN THE UNITED NATIONS (MUN)

Prepare to be immersed in a murder mystery extravaganza like no other as Justitia proudly presents MUN-Murder in the United Nations! Step into the world of Ludo where each participant assumes a crucial role in this thrilling whodunit affair. With Justitia at the helm, get ready for a night of twists, turns, and wickedly witty investigations!

As the dice roll and the game unfolds, unleash your inner detective and outsmart your opponents at every twist and turn. Piece together clues, decode cryptic messages, and channel your wittiest deductions to expose the killer lurking in the shadows of the United Nations. Engage in high-stakes negotiations, craft strategic alliances, and employ your sharpest diplomatic skills to shape the fate of nations.

Will you emerge as the mastermind behind the murder mystery and the conqueror of the diplomatic battlefield?

Anwasha: +91 88677 47575  
Ayeshani: +91 95693 11070

# ENIGMA: MANIPAL QZ

A mutated microorganism has taken over the world transforming the human race into unrecognisable creatures.

Can you find the source of the disease and stop it in time?

Through this mystery room event use your knowledge of medical diagnoses, decipher clues and think on your feet because time is running out!

Prakhya Gupta: +91 78917 91878

THE EMERGENCY MEDICINE STUDENTS' ENTHUSIAST CLUB OF KMC MANIPAL

Arundhati : +91 96187 29383

Mallika : +91 99109 92601

# PACMAN MO

Pac-man, the 1980 maze chase hit of the video game world, is arriving on the playing field again, but this time with a twist of Emergency Medicine.

In this event, participants will participate in teams of 4 and go through a maze involving 10 stations (i.e., video game-inspired stations with EM skills, questions, situations, and more).

To win, the team has to correctly solve all stations, fetching clues related to a final case to be tackled.

But this journey through the maze is not that simple, just like Pac-Man; on the way, the teams will "eat" or collect pixel snacks which would yield them bonus points and will "meet" monsters that will ambush them with tasks and questions. The team will have 3 lives that will get depleted with each failed mission, and the loss of all lives will lead them back to the beginning of the maze.

The game will also have 3 mini stations inspired by the video game in the movie 'Bandersnatch' in which the wrong choice will lead them to the wrong path while the right one will lead them closer to victory.
